CONTENTS OF VOLUME 19

Vol. 19, No. 1

Review

Carlo Alberto Maggi and **Alberto Meli** — 1 — The sensory-efferent function of capsaicin-sensitive sensory neurons

Minireviews

Flavio Tartagni — 45 — Metabolic side effects induced by diuretic therapy: problems and possible solutions

J. Esteve, A. J. Farré and **R. Roser** — 49 — Pharmacological profile of droxicam

John L. Waddington — 55 — Therapeutic potential of selective D-1 dopamine receptor agonists and antagonists in psychiatry and neurology

General Papers

Robert M. Rapoport and **Ferid Murad** — 61 — Effects of ethacrynic acid and cystamine on sodium, nitroprusside-induced relaxation, cyclic GMP levels and guanylate cyclase activity in rat aorta

Trevor W. Stone — 67 — Interactions of carbamazepine, chlormethiazole and pentobarbitone with adenosine on hippocampal slices

Carlo Alberto Maggi, Stefano Manzini, Massimo Parlani, Bruno Conte, Sandro Giuliani and **Alberto Meli** — 73 — The effect of nifedipine on spontaneous, drug-induced and reflexly-activated contractions of the rat urinary bladder: evidence for the participation of an intracellular calcium store to micturition contraction

R. Radomirov and **K. Venkova** — 83 — Effects of low extracellular Ca^{2+} on prostaglandins $F_{2\alpha}$ and E_2 action in longitudinal muscle of guinea-pig caecum

L. Tamayo, J. Rifo and **E. Contreras** — 87 — Influence of adrenergic and cholinergic mechanisms in baclofen induced analgesia

B. H. Ali, J. L. Silsby, F. Edens and **M. E. El Halawani** — 91 — Effects of furazolidone or nitrofurazone on the concentrations of hypothalamic amines and plasma luteinizing hormone (LH) and prolactin (PRL), levels in young turkeys

B. C. Norris, S. M. Palacios, J. B. Concha and **M. T. Chiang** — 97 — Fenoterol stimulation of sodium transport in the isolated toad skin: a beta adrenergic effect

L. Gonzalez-Sicilia, E. Perez-Ojeda, M. L. Laorden, A. J. Brugger and **J. Hernandez** — 103 — Tulobuterol: a full β-adrenoceptor agonist or a partial β-agonist with membrane stabilizing activity?

Maria Bijak — 107 — Daily changes in the mouse cingulate cortex responsivity to neurotransmitters and depolarizing medium: an extracellular *in vitro* study

Sadaharu Usune, Takeshi Katsuragi and **Tatsuo Furukawa** — 113 — Interaction between Bay-K-8644 and various relaxant agents on K^+-depolarized contracture of guinea pig taenia coli

I. Takayanagi, F. Konno, Y. Sato and **H. Uno** — 117 — Pharmacological properties of a new centrally acting muscle relaxant (NC-1200) in isolated muscle preparations

Hugo F. Miranda, Wayne W. Wolstenholme, Gil M. Moreu and **Pedro A. Santiago** — 123 — Effects of haloperidol on neurotransmitter activity in the rat vas deferens

Regina Célia Spadari, Rosana Almada Bassani and **Sergio De Moraes** — 129 — Supersensitivity to isoprenaline and epinephrine in right atria isolated from rats submitted to a single swimming session

L. Chernaeva and S. Charakchieva 137 Leucine-enkephalin- and neuropeptide Y-modulation of [^{3}H]noradrenaline release in the oviduct of mature and juvenile rabbits

Vol. 19, No. 2

Reviews

Walter D. Wosilait and Richard H. Luecke 143 Multifactorial modeling, drug interactions, liver damage and aging

Wolfram Schultz 153 MPTP-induced parkinsonism in monkeys: mechanism of action, selectivity and pathophysiology

Minireviews

H. Shinozaki 163 Pharmacology of oxazolidinones in rat decerebrate rigidity, with reference to their glutamate blocking action

J. Hladovec 171 Models of thrombosis

J. N. Sharma 177 Interrelationship between the kallikrein–kinin system and hypertension: a review

General Papers

Z. M. Al-Zamil, J. Bagust and G. A. Kerkut 189 The effect of aminopyridines on the activity recorded in the dorsal roots of an isolated hamster spinal cord preparation

A. Hevia, J. S. Serrano, J. Gago and A. Reche 195 Effect of low-dose aspirin treatment on human platelet aggregation

M. R. Zarrindast and T. Hosseini-Nia 201 Anorectic and behavioural effects of bupropion

M. R. Pranzatelli 205 The comparative pharmacology of the behavioral syndromes induced by TRH and by 5-HT in the rat

L. A. Skoglund, K. Ingebrigtsen, I. Nafstad and O. Aalen 213 *In vivo* studies on toxic effects of concurrent administration of paracetamol and its *N*-acetyl-DL-methionine ester (SUR 2647 combination)

Abha Agarwal and Rolf D. Walter 219 Inhibition by mefloquine of Ca^{2+} stimulated phospholipid dependent protein kinase from rat spleen

M. R. Zarrindast and Y. Oveissi 223 $GABA_A$ and $GABA_B$ receptor sites involvement in rat thermoregulation

J. Popova, V. V. Petkov and L. Tokuschieva 227 The effect of chronic diazepam and medazepam treatment on the number and affinity of muscarinic receptors in different rat brain structures

A. O. Oyekan, J. H. Botting and B. K. Noamesi 233 Cryptolepine inhibits platelet aggregation *in vitro* and *in vivo* and stimulates fibrinolysis *ex vivo*

Sara K. Swanston-Flatt and Peter R. Flatt 239 Effects of amino acids, hormones and drugs on insulin release and ^{45}Ca uptake by transplantable rat insulinoma cells maintained in tissue culture

Robert P. Hof and Akiko Hof-Miyashita 243 Different peripheral vasodilator effects of isradipine in sodium-loaded and sodium-depleted rabbits

Sanjay Khanna and John G. Sinclair 249 Fluoxetine and pargyline on the nucleus raphe magnus inhibition of cat multireceptive dorsal horn neurones

Stefano Manzini, Massimo Parlani, Mara Astolfi, Carlo Alberto Maggi and Alberto Meli 253 Differential temperature-dependency of electrophysiological and inotropic actions of nifedipine, verapamil and cinnarizine in K^+-depolarized ventricular myocardium

Yi-ping Li and **Yun-mo Wang** 261 Evaluation of tussilagone: a cardiovascular-respiratory stimulant isolated from Chinese herbal medicine

Yasuo Kizawa and **Issei Takayanagi** 265 Substance P-containing nerves mediate nicotine-induced contractions of rabbit bronchial smooth muscle

Yasuo Kizawa, Issei Takayanagi, Michiko Shinkai and **Yoshiko Ohno** 269 Pharmacological action of nicotine in the isolated urinary bladder from rabbit: special reference to the chronic nicotine treatment

Kunio Suzuki, Nanako Kobayashi, Yoshiko Moriya, Yoshimitsu Abiko and **Hiromi Suzuki** 273 Inhibition of human gingival carcinoma cell growth by prostaglandins

Y. Nishida and **T. Miyamoto** 277 Contractile effect of succinylpurines on guinea pig uterus

A. Sánchez-Pozo, J. C. Alados and **F. Sánchez-Medina** 281 Metabolic changes induced by urethane-anesthesia in rats

F. A. Wali, A. H. Suer, E. McAteer, C. H. Dark and **C. J. Jones** 285 Effects of atropine and glycopyrrolate on neuromuscular transmission in the rat phrenic nerve-diaphragm preparation

Book Reviews 291

New Patents i New patents and published patent applications for the United States and over 30 other countries

Vol. 19, No. 3

Minireviews

Jesus Marin 295 Vascular effects of calcium antagonists. Uses in some cerebrovascular disorders

Karmelo M. Lulich, Roy G. Goldie and **James W. Paterson** 307 Beta-adrenoceptor function in asthmatic bronchial smooth muscle

Thomas E. Eling, David Henke and **Roberta Danilowicz** 313 Arachidonic acid metabolism in respiratory epithelial cells

T. E. Strandberg, H. Vanhanen and **T. A. Miettinen** 317 Probucol in long-term treatment of hypercholesterolemia

T. E. Strandberg and **R. S. Tilvis** 321 Physiological and pharmacological regulation of small intestinal cholesterol synthesis

Carl L. Faingold 331 The genetically epilepsy-prone rat

Ronald F. Albrecht and **David J. Miletich** 339 Speculations on the molecular nature of anesthesia

Colin R. Gardner 347 Potential use of drugs modulating 5HT activity in the treatment of anxiety

Pierre-Paul LeBlanc 357 Drug distribution in the body

Timothy E. Weaver 361 Pulmonary surfactant-associated proteins

General Papers

Hideki Ono, Mitsuo Tanabe, Takeshi Nakamura, Nobuo Nagano and **Hideomi Fukuda** 369 Effects of L-threo-dihydroxyphenylserine on spinal reflexes and decerebrate rigidity in rats

Takeshi Suzuki, Hideki Ono and **Hideomi Fukuda** 373 Different effects of norepinephrine and serotonin on the electrical toe stimulation-induced reflexes in the rat spinal cord

Jari H. Stengård, Hannu U. Saarni and Eero A. Sotaniemi 377 Medroxyprogesterone acetate (MPA) enhances liver NADPH-generating enzyme activities in normal rats

I. Werber and M. Horowitz 381 Effects of arginine vasopressin on the sequestration of albumin in extravascular space in the rat

Richard P. White 387 Pharmacodynamic effects of tosyl-arginine methyl ester (TAME) on isolated human arteries

Victoria Clos, Asunción Esteve, Francisco Jane and Pablo Salva 393 Microsomal effects of cyproterone acetate and flutamide in rat testis

David Raeburn, J. Alan Roberts, Ian W. Rodger and Neil C. Thomson 399 Concentration-related differences in the effects of the Ca^{2+} agonist Bay K 8644 in human bronchus *in vitro*

R. Horton, N. J. Rothwell and M. J. Stock 403 Chronic inhibition of GABA transaminase results in activation of thermogenesis and brown fat in the rat

E. M. A. Boeckh Haebisch 407 Nifedipine, its action on the cationic concentrations in heart, vessels, skeletal muscle and blood in tissues of normotensive and spontaneously hypertensive rats (SHR)

H. F. Miranda, W. I. Silva, W. W. Wolstenholme and N. Cuevas 417 Selective antagonism by pirenzepine and *N*-methylscopolamine in muscarinic receptor subtypes of the rat vas deferens

Richard Young 421 Chlorphentermine may produce dual stimulus effects: a preliminary investigation

M. Morales, D. Hernández, R. Ladrón de Guevara and S. Guerrero 425 Electrophysiological effects of verapamil on primary and transitional pacemaker cells of the frog heart

Omar Shaheen, Naif A. Sliman and Walid A. Al-Turk 431 Effect of cimetidine on the pharmacokinetics of theophylline

Tamiko Suzuki, Masako Tomioka and Masaatsu K. Uchida 435 Inhibitory effects of steroidal anesthetics on histamine release from rat mast cells stimulated by concanavalin A, compound 48/80 and A23187

Mitsuo Mita, Naoe Matsuo and Masaatsu K. Uchida 441 Effect of Ca^{2+} deprivation on short-term desensitization of isolated smooth muscle cells showing an all-or-none response to acetylcholine

Luis J. Nuñez-Vergara, I. R. Lemus and J. A. Squella 447 pH and P.E.G.-400 effects on flucloxacillin absorption

Lorna Statile, Margarita M. Puig, William Warner, Mylarrao Bansinath, Mark Lovitz and Herman Turndorf 451 Droperidol enhances fentanyl and sufentanil, but not morphine, analgesia

Jonas I. Addae and Trevor W. Stone 455 Effects of anticonvulsants on responses to excitatory amino acids applied topically to rat cerebral cortex

Keiichi Okumura, Katsuo Koike, Hajime Asai and Issei Takayanagi 463 The selectivity of newly synthesized ergot derivatives to α_1- and α_2-adrenoceptors, D_1- and D_2-dopaminergic receptors, muscarinic acetylcholinoceptors and β-adrenoceptors

Joaquin Garcia-Estrada, Antonio Rodriguez-Segura and Pedro Garzon 467 Cerebral cortex and body growth development of progeny of rats exposed to thinner and turpentine inhalation

S. K. Swanston-Flatt and P. R. Flatt 471 Effects of cationic modification on ^{45}Ca uptake and insulin release by transplantable rat insulinoma cells maintained in tissue culture

Albert Badia, Anisi Moron, Laura Cuffi and Elisabet Vila 475 Effects of ergotamine on cardiovascular catecholamine receptors in the pithed rat

J. G. Aucélio 483 Influence of steroid ovarian hormones and calcium on drug-induced contractions of the isolated immature uterine muscle of mouse. An analysis of histamine receptor system

Susan J. Sulakhe and Thomas R. Wilson 489 The impact of hypothyroidism and thyroxine replacement on the expression of hepatic α_1-, α_2- and β-adrenergic receptors in rat liver plasma membranes

Vol. 19, No. 4

Minireviews

Kinzo Matsumoto, Jun Yamazaki and Hideomi Fukuda 495 Actions of avermectins on cultured neurons

M. C. Champion 499 Domperidone

General Papers

W. T. Cheung, C. M. Lee and C. C. Wong 507 Neonatal monosodium-L-glutamate treatment reduced lipolytic response of rat epididymal adipose tissue

C. Lippe and C. Ardizzone 513 Action of forskolin on non-electrolyte permeability across the urinary bladder of *Bufo bufo* as compared to that of various hormones

Yoshiaki Akimoto, Akio Uda, Hiroaki Omata, Hitoshi Nishimura, Masamichi Komiya, Kenji Kaneko, Akira Fujii and Toyoyuki Tamura 515 Ampicillin concentrations in human serum and periodontal membrane following a single oral administration of talampicillin

Carlo Alberto Maggi, Sandro Giuliani, Paolo Santicioli, Riccardo Patacchini and Alberto Meli 517 Neural pathways and pharmacological modulation of defecation reflex in rats

Carlo Alberto Maggi, Sandro Giuliani, Paolo Santicioli and Alberto Meli 525 Propagated motor activity in the small intestine of urethane-anaesthetized rats: inhibitory action of sympathetic and capsaicin-sensitive nerves

Y. K. Fung and J. A. Reed 533 Effect of nicotine on central GABAergic system

Christine Benistant, Catherine Rey, Pierre Fonlupt and Henri Pacheco 537 Interaction of propranolol with GABA stimulated diazepam binding to rat brain membranes

Katsuo Koike, Issei Takayanagi, Mitsuo Ohashi, Takayuki Nakazawa, Naomi Kumagai and Ken-Ichi Kishii 541 Ca-entry blockers, verapamil and diltiazem, on α_1-adrenoceptors in thoracic aorta, renal artery and portal vein from rabbit

Noboru Yamazaki, Kenji Hoshina, Shigehiro Takahama, Yorimasa Suwa, Toru Takeshita and Tatsuyuki Naruchi 547 Effect of a new anti-ulcer drug, (3-[*p*-(trans-4-aminomethylcyclohexylcarbonyl)-phenyl] propionic acid hydrochloride, TEI-5103) on prostaglandin (PG) levels in rat gastric mucosa

Regina Célia Spadari and Sérgio De Moraes 553 Repeated swimming stress and responsiveness of the isolated rat pacemaker to the chronotropic effect of noradrenaline and isoprenaline: role of adrenal corticosteriods

S. Abdalla, M. Abu-Zarga, F. Afifi, S. Al-Khalil and S. Sabri 559 Effects of hispidulin, a flavone isolated from *Inula viscosa*, on isolated guinea-pig smooth muscle

Charles P. Lyman and Regina C. O'Brien 565 A pharmacological study of hibernation in rodents

J. S. Serrano, A. Hevia, A. Fernández-Alonso and J. R. Castillo 573 Effect of PK 11195, an antagonist of benzodiazepine receptors, on platelet aggregation in a model of anxiety in the rat

E. Tal, K. Mohari, L. Koranyi, Zs. Kovacs and E. Endroczi 579 The effect of indomethacin, ibuprofen and paracetamol on the TRH induced TSH secretion in the rat

A. L. Gardner, L. K. Choo and F. Mitchelson 583 Paraoxon-induced desensitization and its reversal by tetrodotoxin

Anthony D. Okonmah, John W. Brown, Joseph O. Owasoyo and Karam F. A. Soliman 589 Alterations of fetal brain biogenic amine metabolites by maternal ethanol exposure

João B. Calixto, Mauro Nicolau and Rosendo A. Yunes 595 Antagonistic effect of *Mandevilla velutina* extract on kinin-induced contractions of guinea-pig and cat ileum longitudinal smooth muscle

Masahiro Aomine 601 Acute effects of amiodarone on action potentials of isolated canine Purkinje fibers: comparison with tetrodotoxin effects

Masahiro Aomine 609 Acute effects of amiodarone on action potentials of isolated guinea-pig ventricular muscle exposed to simulated ischemic solution and metabolic inhibitors

Masahiro Aomine 615 Does acute exposure to amiodarone prolong cardiac action potential duration?

Masahiro Aomine 621 Inhibition by amiodarone of slow response action potentials and contraction in guinea pig ventricular muscle

L. Chernaeva 625 Adrenergic mechanisms of the contractile response of rabbit oviduct to electrical stimulation

B. H. Ridzwan, A. M. Mat Jais and N. G. Waton 631 The depletion effects of chlorpromazine, reserpine and ascorbic acid on tissue histamine of guinea-pigs

Book Reviews 637

New Patents i New patents and published patent applications for the United States and over 30 other countries

Vol. 19, No. 5

Minireviews

Anthony W. Fox 639 Vascular vasopressin receptors

L. M. L. Stolk and A. H. Siddiqui 649 Biopharmaceutics, pharmacokinetics and pharmacology of psoralens

General Papers

C. R. C. Guimaraes, L. A. Rodrigues, O. Vettore and A. Antonio 655 The relaxing response of the isolated rat duodenum to nicotine

Fukiko Ueda, Midori Nagata, Toshifumi Nagata and Yasuie Shimazaki 661 Effects of zinc and EDTA on tissue cadmium in various smooth muscles in rabbit and guinea-pig

Nuray Yildizoğlu-Ari, Orhan Altinkurt, Yusuf Öztürk, V. Melih Altan, Can Pekiner and Çimen Karasu 665 Decreased gastro-intestinal responses to salbutamol and serotonin in streptozotocin-induced diabetes: improving effect of insulin *in vivo* and *in vitro*

E. Contreras, E. Fernández and M. Villar 669 Mechanisms of the contractile responses to morphine of the mouse colon *in vitro*

C. C. Wong, J. Y. Chu and K. W. Chiu 673 Effect of neonatal monosodium-L-glutamate treatment on the response of isolated uterine preparation to various uterine contraction stimulators

R. Franco, C. H. V. Hoyle, J. J. Centelles and G. Burnstock 679 Degradation of adenosine by extracellular adenosine deaminase in the rat duodenum

J.-M. Yang, W. E. Woods, T. J. Weckman, T. W. Wood, S.-L. Chang, J. W. Blake and T. Tobin — 683 — The detection, pharmacokinetics and behavioral effects of diisopropylamine dichloroacetate (DADA) in the horse: a preliminary report

T. Taneike, H. Miyazaki, S. Oikawa and A. Ohga — 689 — Compound 48/80 elicits cholinergic contraction through histamine release in the chick oesophagus

Susan E. Howlett and Theodore B. Hoekman — 697 — Responsiveness of normal and dystrophic avian muscle to acetylcholine, carbamylcholine and *d*-tubocurarine

M. R. Zarrindast and M. Djavdan — 703 — $GABA_A$-antagonists and baclofen analgesia

Mizue Makimura, Yoshihisa Ito and Yoshie Murakoshi — 707 — Inhibitory mechanism of opioid binding to receptor by phospholipase A_2

H. A. El Sheikh, B. H. Ali, A. M. Homeida, T. Hassan and H-J. Hapke — 713 — The activities of aminopyrine *N*-demethylase, aniline 4-hydroxylase and UDP-glucuronyltransferase in tissues of camels, desert sheep and Nubian goats

Inger Nafstad, Sverre Tollersrud, Karin Eriksen, Anders Helgeland, Lars Åge Solberg, Jan Bredesen and Ola Dale — 719 — The influence of atenolol and prazosin on serum lipids and atherosclerosis in minipigs fed a hyperlipidemic diet

Thomas A. McKean — 725 — The density of β-adrenoreceptors in cardiac muscle membranes of muskrats and guinea pigs

Aron D. Mosnaim, Javier Puente, Marion E. Wolf, Owen H. Callaghan, Randall Busch and Seymour Diamond — 729 — Studies of the *in vitro* human plasma degradation of methionine-enkephalin

Fadi Y. Malik, Camille F. Nassar, Nayef E. Saadeh, Nicolas W. Shammas and Suhayl J. Jabbur — 735 — Dopaminergic and adrenergic binding affinities in rabbit retinal synaptosomes

Reijo Ryhänen, Paavo Honkakoski, Mikko Harri, Pauli Ylitalo and Osmo Hänninen — 741 — Effect of the cold environment on organophosphate toxicity and inhibition of cholinesterase activity

New Patents — i — New patents and published patent applications for the United States and over 30 other countries

Vol. 19, No. 6

Minireview

Herbert J. Kramer — 747 — Atrial natriuretic hormones

General Papers

D. Bustamante, H. F. Miranda, C. Paeile and W. W. Wolstenholme — 755 — Effects of clonixin, a non-steroidal analgesic, on the neurotransmission of the vas deferens of the rat

Thierry Jullien and Jean Verdetti — 759 — Comparative electrophysiological response of young and old rat myocardium to pharmacological agents

G. Coruzzi, M. Adami and G. Bertaccini — 767 — Effect of forskolin on gastric acid secretion "*in vitro*": interaction with different secretagogues

Maribel Martin, María José Alfaro and Juan Tamargo — 771 — Effect of oxodipine and nifedipine on guinea-pig ileum

Philip D. Langton and Henry Huddart — 775 — Voltage and time dependency of calcium mediated phasic and tonic responses in rat vas deferens smooth muscle—the effect of some calcium agonist and antagonist agents

Nobuo Nagano, Hideki Ono and Hideomi Fukuda	789	Functional significance of subtypes of 5-HT receptors in the rat spinal reflex pathway
Nobuo Nagano, Hideki Ono and Hideomi Fukuda	795	Inhibitory effect of phencyclidine on rat spinal reflexes
Tetsuhiko Nagao and **Hikaru Suzuki**	799	Effects of α,β-methylene ATP on electrical responses produced by ATP and nerve stimulation in smooth muscle cells of the guinea-pig mesenteric artery
S. E. Ohia and **F. C. Boyle**	807	Involvement of prostaglandins in the inhibitory response of adrenoceptor agonists in the rat isolated uterus
Reijo Ryhänen, Mikko Kajovaara, Mikko Harri, Eila Kaliste-Korhonen and Osmo Hänninen	815	Physical exercise affects cholinesterases and organophosphate response
Peter C. Baker and **Kenneth M. Hoff**	819	Indoleamine stores in maturing mouse brain reexposed to citalopram following extended uptake inhibition
Catherine L. Coulter, I. Caroline McMillen and Christopher A. Browne	825	The catecholamine content of the perinatal rat adrenal gland
Xaviera García and **Enrique Gijón**	829	Anaphylactic contraction of guinea pig smooth muscle passively sensitized with chicken antiserum
V. Lahera, V. Cachofeiro, F. Duran, F. J. Cañizo, F. J. Rodriguez and J. A. F. Tresguerres	835	Acute effect of potassium canrenoate administration on renin–angiotensin, kallikrein–kinin and prostaglandin systems
Joaquin García-Estrada, Guadalupe Tapia-Arizmendi, Alfredo Feria-Velasco and Victor Alemán	841	Ultrastructural alterations in caudate nucleus, cerebral cortex and hippocampus produced by morphine
Vera Simeon, Elsa Reiner, Mira Škrinjarić-Špoljar and Blanka Krauthacker	849	Cholinesterases in rabbit serum
Book Reviews	855	
New Patents	I	New patents and published patent applications for the United States and over 30 other countries
